Question about token

Hello! I’m happy to help you with any questions about the Token system.

Could you let me know which part you’re curious about?...

What is a Token?

Token is a virtual currency we have introduced. It helps you exchange items of equal value and saves time. You don’t need to wait for item-to-item matching. Instead, you can directly convert your items into Tokens and use them to redeem other items or services.

How does the Token exchange process work?

Okay, here's the swap process：
1. Bring Items
2. Item Evaluation
3. Token Issuance
4. Use Tokens Tokens
5. Automatic Recording
6. View Records

Check the token valuation standards for items

Sure! Which type of item would you like to check the token valuation standard for?

Book

Here are the valuation standards for household items:
1. **Brand new, unopened**: 17 Tokens
2. **90% new, no damage:** 15Tokens
3. **General wear, slight usage marks:** 10Tokens
4. **Obvious usage, slight damage:** 5 Tokens
5. **Severely damaged or unusable:** 3Token

To ensure accurate valuation, all items must be inspected by staff on-site. Thank you for your understanding!

Electronics

Here are the valuation standards for electronics:
1. **Brand new, unopened, fully functional**: 20+ Tokens
2. **90% new, no visible damage**: 18+ Tokens
3. **General wear, minor scratches, functional**: 15+ Tokens
4. **Obvious use, still functional**: 12Tokens
5. **Faulty or heavily damaged**: 6+ Tokens

To ensure accurate valuation, all items must be inspected by staff on-site. Thank you for your understanding!

Household Items

Here are the valuation standards for books:
1. **Brand new, genuine books**: 7-6 Tokens
2. **90% new, no obvious damage**: 5 Tokens
3. **General wear, slight notes or minor wear**: 3-4 Tokens
4. **Obvious use, but content complete:** 2 Tokens

To ensure accurate valuation, all items must be inspected by staff on-site. Thank you for your understanding!
